Anita Weaver
Darlene Wedler-Johnson
The Resource Development Department thanks everyone for their collaborative approach to grant seeking in support of program development, enhancement and expansion. With the help of faculty and staff Manatee Community College has received more than $2.2 million in funding for the 2005-2006 academic year. This is the highest annual amount ever. This year’s luncheon celebrates the collaborative efforts of those who developed proposals in 2005. Many of these initiatives required teamwork that not only brought together departments and divisions within the College, but also reached out to new partners in the community.

I am proud that the teamwork and inspiration exhibited by these individuals truly reflects the spirit of Manatee Community College. With each new year it is my hope that even more ideas will surface, new resources will be tapped and that our growing partnerships throughout the community will continue to enhance MCC’s future.

Thank you very much.

**Bradley W. Davis**  
Director, Resource Development
