Academic Year 2018-2019 (students who began the program in Fall 2018, Spring 2019 or Summer 2019)

Academic Year 2019-2020 (students who began the program in Fall 2019, Spring 2020 or Summer 2020)

ASN Program

End-of-Program Student Learning Outcomes

- 1.) Incorporate **knowledge of biological, psychological, social, spiritual and cultural needs of clients and families** when providing patient centered nursing care in diverse settings and across the life span.
- 2.) Exemplify **a respectful and caring attitude** and incorporate **skills of advocacy** when working with diverse clients in a variety of health care environments.
- 3.) Apply **current evidence and clinical reasoning** to guide the nursing process in the direct delivery of safe, culturally competent, quality care to clients, families, and communities along the health-illness continuum.
- 4.) Employ **effective and therapeutic communication** techniques with patients, families, communities and members of the health care team.
- 5.) Integrate **leadership skills in the various nursing roles**: manager and provider of care, advocate, teacher, and as a member of the nursing profession.
- 6.) Synthesize **ethical and legal principles** in the professional role as a nurse in the clinical and community setting.
- 7.) Employ **information literacy skills to identify current evidence** through the effective use of informatics to communicate, manage knowledge, improve the quality of patient care, and support decision-making for clients, families, and communities.
